DECISION DIRECTIVE

SUBJECT: NSDD 8-82: U.S. Strategy Towards the Horn of Africa

The Horn of Africa is important to the United States primarily because of its strategic location with respect to the Persian Gulf/Southwest Asia region. The objectives of U.S. strategy toward the Horn are:

- -- To gain and consolidate U.S. military access to regional facilities;
- -- To deter and counter attacks or destabilization efforts against friendly states;
- -- To improve the economic health and internal political security of friendly states;
- -- To work for the resolution of local conflicts; and
- -- To reduce and ultimately remove Soviet and Soviet-proxy presence and influence.

In order to achieve these objectives, the U.S. shall pursue a comprehensive and coordinated strategy towards the countries and issues in this region. This strategy shall—consist of the following specific elements:

With respect to Somalia:

- -- To consolidate our military access to Somali facilities by completing currently planned military construction projects.
- -- To enhance Somalia's ability to deter limited Ethiopian air and ground incursions and to enable Somalia to defend itself against Ethiopian/Libyan supported guerrilla attacks. This will require within the overall budget levels giving greater priority to security assistance for Somalia.
- -- To enhance deterrence of aggression against Somalia with other direct actions including a gradual increase in the frequency and level of military exercises in Somalia, avoiding
